April, 2019

## Mining machines come back to the city

**Arminera will have an outdoor 1,500 sqm space with large equipment exhibited. The exhibition will be carried out on May 7-9 in Buenos Aires.**

For the second edition in a row, the International Trade Fair for the Mining Industry will have an outdoor space in which companies such as ALL PUMPS, BAHCO, COAMTRA, D'ANGIOLA, INGENIERÍA GAUSS, KAESER LIEBHERR, REPAS and SCANIA will show their latest technological news.

The aim is that visitors can appreciate at real scale the enormous size machines and equipment used in the industry. Those who attend the event may see compressors, cranes, trucks, tents, lighting towers, hydraulic drillers, pumps, loaders and containers, among others.

Taking into account that mining projects are far away -usually located in remote and inaccessible places- the machine square seeks to make mining known to wider audiences.

Apart from bringing the industry closer to visitors, the machine square also gives exhibitors an extra space for them to be able to offer their equipment, with the possibility that the interested people may have a direct contact with the product.

The outdoor fair will have 1,500 sqm and may be visited in the same exhibition hours: from Tuesday, May 7 to Thursday, May 9, from 1 p.m. to 8 p.m. in Costa Salguero Center.

The exhibition is only for businessmen and professionals of the sector. With an invitation: free of charge. People under 16 years will not be admitted, even if attending with an adult.

### **Background information on Argentine Chamber of Mining Companies (CAEM)**

The Argentine Chamber of Mining Companies (CAEM) was founded in 1991 as a result of the joint decision of the most important companies already present in the market, and with the purpose of strengthening and streamlining the potential of the mining industry. CAEM represents its members before the country's authorities and abroad, as well as before individuals and private companies, promotes congresses, conferences, seminars, exhibitions, events and publications and encourages the exchange with public institutions and private organizations connected to mining activities, locally and abroad.

The Argentine Chamber of Mining Companies (CAEM) gathers all of the mining activities. It represents - in every production stage – those companies dedicated to metalliferous and non-metalliferous mining and construction materials. It also gathers the Exploration Chambers, the provincial Chambers of the industry and suppliers: from machinery manufacturers to consumer goods and services companies, as well as technical, legal and financial advisors..

### **Background information on Messe Frankfurt**

Messe Frankfurt is the world's largest trade fair, congress and event organiser with its own exhibition grounds. With more than 2,400 employees at 30 locations, the company generates annual sales of around €669 million. Thanks to its far-reaching ties with the relevant sectors and to its international sales network, the Group looks after the business interests of its customers effectively. A comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
