Natalia Porta

The largest mining meeting of the country will have its 12th edition on May 7-9 in Costa Salguero Center and is on the space selling process.

A new edition of the International Trade Fair for the Mining Industry opens its doors in 2019, showing not only the latest technologies in products and services of the sector, but also offering a wide variety of activities and proposals in parallel.

The fair is in the commercialization process and the organizers trust in repeating the good 2017 results. "The aim now is exceeding what we have already built", states Ezequiel Gorbarán, Project Manager.

The success formula lies not only in summoning companies but also in the simultaneous development of a full academic and business program. "The more than 1,200 meetings generated between suppliers and mining companies were an example of the potential that this industry has and of how much a professional exhibition such as Arminera can do in this sense", adds the executive.

Furthermore, the participation of all the industry actors, from public and private organizations, embassies, professional and business associations up to educational institutions and NGOs give the fair an added value, turning it into a strategic place for decision making and as a first-hand information source.

"This year we wish to add new players that are part of the mining framework. The lithium, for example, is a sector that is reaching its peak and development in the country and we hope that it becomes more prominent in this new Arminera", says Gorbarán.

Those who wish to take part in the 12th edition of the exhibition can contact the commercial team by email at arminera@argentina.messefrankfurt.com or by phone at +54 11 4514 1400.

Arminera will be carried out on **May 7-9, 2019** in Costa Salguero Center of Buenos Aires. The event is organized by the Argentine Chamber of

Background information on Argentine Chamber of Mining Companies (CAEM)

The Argentine Chamber of Mining Companies (CAEM) was founded in 1991 as a result of the joint decision of the most important companies already present in the market, and with the purpose of strengthening and streamlining the potential of the mining industry. CAEM represents its members before the country's authorities and abroad, as well as before individuals and private companies, promotes congresses, conferences, seminars, exhibitions, events and publications and encourages the exchange with public institutions and private organizations connected to mining activities, locally and abroad.

The Argentine Chamber of Mining Companies (CAEM) gathers all of the mining activities. It represents - in every production stage – those companies dedicated to metalliferous and non-metalliferous mining and construction materials. It also gathers the Exploration Chambers, the provincial Chambers of the industry and suppliers: from machinery manufacturers to consumer goods and services companies, as well as technical, legal and financial advisors..

Background information on Messe Frankfurt

Messe Frankfurt is the world's largest trade fair, congress and event organiser with its own exhibition grounds. With more than 2,500* employees at 30 locations, the company generates annual sales of around €715* million. Thanks to its far-reaching ties with the relevant sectors and to its international sales network, the Group looks after the business interests of its customers effectively. A comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
