Background information on Argentine Chamber of Mining Companies (CAEM)

The Argentine Chamber of Mining Companies (CAEM) was founded in 1991 as a result of the joint decision of the most important companies already present in the market, and with the purpose of strengthening and streamlining the potential of the mining industry. CAEM represents its members before the country's authorities and abroad, as well as before individuals and private companies, promotes congresses, conferences, seminars, exhibitions, events and publications and encourages the exchange with public institutions and private organizations connected to mining activities, locally and abroad.

The Argentine Chamber of Mining Companies (CAEM) gathers all of the mining activities. It represents - in every production stage – those companies dedicated to metalliferous and non-metalliferous mining and construction materials. It also gathers the Exploration Chambers, the provincial Chambers of the industry and suppliers: from machinery manufacturers to consumer goods and services companies, as well as technical, legal and financial advisors..
