The leading exhibition of the sector will have its 12th edition next May and will summon the main operating companies, suppliers, professionals and decision makers of the market.

The national mining world actors will have their most important event in two months, when they will gather in Arminera, the exhibition that will take place on May 7-9 in Costa Salguero Trade Center of Buenos Aires.

With a new boost taken as from 2017 –when the event showed a categorical change in its deployment and a stronger business atmosphere-, this year Arminera seeks to redouble the bet and become once again a center for the mining business of the region, with training proposals and networking, and the exhibition of state-of-the-art technologies and services.

In the last edition, 96% of exhibitors said they were pleased with their participation. And 98% of visitors, in time, were also pleased with the products and services they found.

In 2019, Arminera will have an international matchmaking program and a development program for local suppliers, lectures, conferences and product demos, apart from a great 2,500 sqm outdoor plaza of machines, among other activities and proposals.

Those who wish to attend the fair can already pre-register at www.arminera.com.ar and those companies who want to join and book the latest available booths should contact us at arminera@argentina.messefrankfurt.com or by phone at +54 11 4514 1400.

The exhibition will be carried out on May 7-9, 2019 in Costa Salguero Center of Buenos Aires.

The exhibition is only for businessmen and professionals of the sector. With an invitation: free of charge. People under 16 years will not be admitted, even if attending with an adult.

Background information on Argentine Chamber of Mining Companies (CAEM)

The Argentine Chamber of Mining Companies (CAEM) was founded in 1991 as a result of the joint decision of the most important companies already present in the market, and with the purpose of strengthening and streamlining the potential of the mining industry. CAEM represents its members before the country's authorities and abroad, as well as before individuals and private companies, promotes congresses, conferences, seminars, exhibitions, events and publications and encourages the exchange with public institutions and private organizations connected to mining activities, locally and abroad.

The Argentine Chamber of Mining Companies (CAEM) gathers all of the mining activities. It represents - in every production stage – those companies dedicated to metalliferous and non-metalliferous mining and construction materials. It also gathers the Exploration Chambers, the provincial Chambers of the industry and suppliers: from machinery manufacturers to consumer goods and services companies, as well as technical, legal and financial advisors..

Background information on Messe Frankfurt

Messe Frankfurt is the world's largest trade fair, congress and event organiser with its own exhibition grounds. With more than 2,500* employees at 30 locations, the company generates annual sales of around €715* million. Thanks to its far-reaching ties with the relevant sectors and to its international sales network, the Group looks after the business interests of its customers effectively. A comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
