## Arminera 2027 is Underway: a larger edition that consolidates the growth of the sector

**Buenos Aires, May 2026.- Argentina's premier mining industry event will take place from May 18 to 20, 2027, at La Rural Trade Center. The sales process for exhibition spaces is now officially open for companies interested in participating.**

Arminera is preparing to once again become the meeting point for the mining industry's key players—an ideal environment to generate new business opportunities and discover the latest sector innovations. Organized by the Argentine Chamber of Mining Companies (CAEM) and Messe Frankfurt Argentina, the exhibition continues to strengthen its position as one of the region's leading mining business platforms.

The first major commercial milestone for Arminera 2027 will take place on **July 2**, with the official space allocation event. Companies interested in participating and securing their space in advance can register through the following link: <https://bit.ly/49t3wN9> CAEM members have special benefits.

With each edition, the exhibition reflects the growth of the sector—and this year will be no exception. **Arminera 2027 will grow in surface area**, occupying three exhibition halls at the venue, and will introduce new features, including a **dedicated area focused on mining exploration**.

Outdoors, a Machinery Square **will be developed**, where exhibitors will present equipment, technology and solutions for the industry. In addition, the **Matchmaking Program** will once again play a central role, with the aim of promoting commercial ties and investment opportunities.

The exhibition will also feature an extensive **program of parallel activities**, focused on professional updating, which will include conferences, training sessions and industry meetings.

In a context of strong mining expansion in Argentina, Arminera reinforces its role as a key meeting point for operators, suppliers, investors, authorities, and professionals across the entire value chain.

In this regard, **Alejandra Cardona, Executive Director of CAEM**, stated: *"this Arminera occurs at a key moment in the industry, where growth is no longer just potential but is becoming a reality. For CAEM, this edition also holds special significance as it coincides with the celebration of our 70th anniversary. Arminera will be an opportunity not only to project the future of the industry, but also to highlight the path we have traveled."*

Meanwhile, **Arminera's Manager, Ezequiel Gorbarán**, added: *"With each edition we seek to improve the experience of exhibitors and visitors. In 2027 we are going to expand the surface area, introduce new sectors and networking areas. Argentina's mining industry is growing and the exhibition reflects this process, facilitating exchange and promoting the sector's international visibility."*

The results of the latest edition support this upward trend. In 2025, Arminera grew by 48.6% compared to its previous edition and received 18,800 visitors. 12 mining and supplier provinces participated, along with delegations from 17 countries.

In this way, Arminera continues to strengthen its position **as one of the leading mining business platforms in the region.**

Exclusive event for professionals and individuals related to the sector. By invitation: free of charge. To register, you must present your ID. Entry will not be allowed for minors under 16 years old, even if accompanied by an adult.
