Arminera 2027 Invites Mining Sites to Participate in the Supplier Development Matchmaking Program

Buenos Aires, November 2026 – The initiative aims to foster business meetings between mining operations and event exhibitors, strengthening the industry's value chain. More than 3,700 meetings were held during the previous edition.

Arminera 2027 is already underway and is preparing to bring together the leading players of the local and international mining industry. The exhibition will take place from **May 18 to 20, 2027, at La Rural Trade Fair Center in Buenos Aires**, at a time when Argentina's mining industry continues to expand.

Within this framework, the organizers have opened the call for **mining companies interested in participating in the Supplier Development Matchmaking Program**, which will take place throughout the three days of the exhibition.

The Supplier Development Matchmaking Program is exclusive to Arminera exhibitors and is designed to generate business opportunities between suppliers and operating mining sites across the region. During the 2025 edition, more than **3,700 meetings** were held, doubling the results of the previous edition, and the number is expected to continue growing in 2027. This projection reflects the industry's evolution and the increasing demand for a larger and more specialized supplier network to support new mining projects.

Arminera 2027 will also expand its exhibition space, occupying all three exhibition halls at La Rural, in addition to the central outdoor area that will host the **Machinery Square**, where large-scale equipment and machinery will be showcased. Space sales continue to advance successfully, and only a limited number of exhibition spaces remain available for companies interested in exhibiting.

Organized by the **Argentine Chamber of Mining Companies (CAEM) and Messe Frankfurt Argentina**, Arminera 2027 is a must-attend event for everyone involved in the mining value chain. To learn more about the exhibition, visit arminera.com.ar.
